

HEADERS? "YES" RIGHT IN STOCK

McCormick Headers are built for the man who wants a durable, light draft machine that will give satisfactory service under all conditions. It is designed especially for the man who desires a machine to cut large areas of grain, and its rated capacity is about four times greater than that of a binder. We not only carry the machine itself in stock but we also carry an exceptionally heavy stock of repair parts. In fact our repair parts stock is large enough to enable us to assemble several machines from the parts carried by ourselves. This as you know means service, and service means economy to you.
